Drill Chucks for Hand-held Machines
 For every target group and all requirements

Premium Line

Keyless Drill Chuck
with metal sleeve and carbide-insert

Extra RV13 carbide-insert metal one-piece-design
Extra RV13 carbide-insert metal two-piece-design
Extra RV10 metal one-piece-design
Extra RV10 metal two-piece-design

Best for percussion drilling and **high-torque** screwing in concrete, steel and wood.

Keyless Drill Chuck
with plastic sleeve and carbide-insert

Extra RV13 carbide-insert plastic one-piece-design
Extra RV13 carbide-insert plastic two-piece-design
Extra RV10 plastic one-piece-design
Extra RV10 plastic two-piece-design

Best for drilling and **high-torque** screwing in steel and wood.

Keyless Drill Chuck
in very compact design

Extra RV13-XS metal one-piece-design
Extra RV13-XS plastic one-piece-design

Highest performance meets most **compact** design.

Orange Line

Keyless Drill Chuck
with metal sleeve

Extra RV13-E metal one-piece-design
Extra RV13-E metal two-piece-design

Best for percussion drilling and screwing in concrete, steel and wood.

Keyless Drill Chuck
with plastic sleeve

Extra RV13-E plastic one-piece-design
Extra RV13-E plastic two-piece-design
Extra RV10-E plastic one-piece-design
Extra RV10-E plastic two-piece-design

Best for drilling and screwing in steel and wood.

Make the right choice.

Premium Line

You are searching for a drill chuck with the following features:

- Long life
- Best RÖHM-quality
- Carbide-inserts for 13mm drill chuck RV
- Best concentricity
- Compact design (Extra RV-XS)

Your drill chuck shall meet the following demands:

- (Percussion-) drilling and screwing with high torque
- Use in wood and steel, concrete if applicable
- Multi-purpose use

Your choice: The **RÖHM Premium Line**

Automatic Retightening Chuck
in high-quality steel design

Supra SK13-E one-piece-design with locking-ring
Supra SK13-E two-piece-design with locking-ring
Supra SK13-S two-piece-design with locking-ring

Stable and wear-resistant flat jaw design, guarantees no slippage of tool during **heaviest drilling and screwing applications**. Best for steel industry.

Keytype Drill Chuck

Prima10-S
Prima13-S
Prima16-M

Allround-chucks for all sophisticated purposes with **best run-out**. Also suitable for box column drills.

All chucks are being delivered separately in a practical blister package.

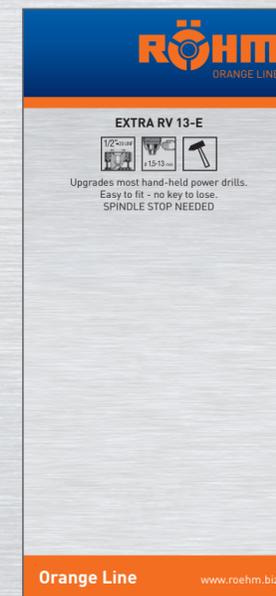

Keytype Drill Chuck

Prima10-L
Prima13-L

Allround-chuck for all purposes.

All chucks are being delivered separately in a practical blister package.

Orange Line

You are searching for a drill chuck with the following features:

- Very good cost-performance ratio
- High quality
- Good concentricity

Your drill chuck shall meet the following demands:

- Reliable (percussion-) drilling and screwing
- Use in wood and steel, concrete if applicable

Your choice: The **RÖHM Orange Line**
